

Putnam Board of Education Goals 2017/18

1. Create learning environments which promote 21st century skills, support authentic and innovative student learning as well as challenge and motivate students.
2. Increase the achievement of all students while meeting their individual needs through innovative teaching strategies, vertically aligned curricula and assessments.
3. Provide, expand and coordinate programs which support overall wellness for students as well as employees.
4. Advocate for families, enhance communication, foster relationships, and strengthen community partnerships to increase community involvement in the school system.

Adopted: July 19, 2017
