

Instruction

Emergency Closings

The Board authorizes the Superintendent to close the schools, delay their opening, and/or to dismiss them early in the event of hazardous weather or other emergencies which threaten the safety or health of students or staff members.

It is understood that the Superintendent will take such action only after consultation with appropriate personnel.

The public will be notified annually of the procedures for emergency closing, delayed opening, and early dismissal procedures; as well as public broadcast stations that will carry the announcements.

The District will compile and maintain a database for an electronic notification system, with an annual opt out form as part of the student data collection.
