

## **Bylaws of the Board**

### **Monitoring Products and Processes**

#### **Self-Evaluation**

The Putnam Board of Education is made up of duly elected individuals to oversee the Public Schools of the community. This very responsible and complex job requires that the Board blend its diverse opinion into a common purpose which will give direction to the school system. The local community looks to its Board of Education to provide leadership for the school system. The success of the system depends on how well that role is carried out.

Therefore, it shall be the policy of the Putnam Board of Education that there shall be an annual program of self evaluation in which each member shall participate.
